

Homelessness and Eviction Prevention: Key Southern Arizona Community Resources

United Way's Eviction Prevention Case Management community partners helped compile this list of key resources related to housing stability. Unfortunately, housing and emergency resources are limited and in constant flux; it can be difficult to know which groups have resources at any given time.

This list is not exhaustive of all resources in our community, but United Way partners recommend these places as strong starting points for individuals in the following situations:

Homelessness Intervention: Resources for someone who is currently unhoused
